Food and Drug Administration
5600 Fishers Lane
Rockville, MD 20857

Att: Jane Henney
Commissioner

Dear Jane Henney:

I am concerned about the lack of control on eggs sent to market, which may be contaminated by salmonella disease. By all means, eggs, as well as other foods that are intended for human consumption should be rigidly controlled and tested for any and all contamination and disease.

The rules should be adopted immediately rather than allow possible contamination to be sold in our markets.

Please do all that you can to implement the controls and rules at the earliest possible date.

Thank you

A handwritten signature in black ink, appearing to read "William Booth". The signature is fluid and cursive, with a large initial "W" and a long, sweeping underline.
